April 2011

**Reminder: Use a Binder Clip to Hold Samplers** – The AMoN field SOP recommends that you use a standard, medium-sized binder clip to hold the sampler in place. We will include three clips for you with the next sample set that goes out.

**The AMoN is Growing!** The AMoN welcomed 18 new sites in March and 5 sites in April, and now includes 44 active sites. There are plans to add 8 additional sites this spring.

**Sampler shipments** – Samplers are typically sent out the Tuesday before the change date. If you do not receive your samplers in time, please contact the CAL.

**Sample Change Dates** – This is the Tuesday sample change schedule for May – June 2011. All change dates are posted online at [http://go.illinois.edu/NADPCalendar](http://go.illinois.edu/NADPCalendar).
  - May 10
  - May 24
  - June 7
  - June 21
